DRAUGHT COVER INVESTMENT (PTY) LTD

*Turn-Key Mining Solutions
for Botswana & Beyond*

About Us

- Draught Cover Investment operates within the Botswana mining and related industries, providing efficient turn-key solutions for mining operations.
- Our experience involves working with large mining companies on heavy mining equipment, enabling us to provide a comprehensive support offering.
- We offer premium quality alternative replacement spare parts for mining machinery (imported from Europe) and specialised engineering & fabrication solutions.

KMS Locations

Moshupa, Botswana

Mission & Vision

MISSION

To deliver innovative solutions to your mining operation.

VISION

- Provide specialised, efficient solutions for your business.
- Supply premium quality products and turnkey machinery options.
- Empower long-term growth in the local economy.
- Drive operational efficiency across the mining and engineering value chain.

OBJECTIVE · Increase employment, skills development, and create lasting change in local communities.

Products & Services

Spare Parts

Premium-quality alternative replacement parts for Liebherr, CAT, Komatsu, Volvo, Sany, Cummins & more — sourced direct from Europe.

Component Repairs

Track Workshop & Powertrain Workshop offering repairs on track frames, engines, transmissions, gearboxes, torque converters and hydraulic cylinders.

Fabrication & Labour

Engineering solutions for buckets, bowls, blade groups and access steps. Skilled labour hire: artisans, welders, boilermakers and general assistants.
